

The Pulse of Wholesale Monitoring

As the new year begins, we are also going to start it off with a new format for The Pulse. To cut down on your emails and ours, we will be sending The Pulse weekly and include all those items you would typically have gotten in individual emails. Our hope is that this will save you time and give you a single place to look each week to find news about wholesale monitoring at STANLEY Security, [now part of Securitas Technology](#). You will continue to receive one off emails and requests as necessary, but your news for the week can be found here in The Pulse.

We are grateful that you have allowed us the honor of monitoring your customers' accounts. As always if you need anything please reach out to the Dealer Relations team at 800-932-3304, option 2 or wholesale-dealer@sbdinc.com.

Interactive Video Monitoring

Trained professionals at the STANLEY Security Monitoring Center review alerts from onsite security panels or camera analytics to visually confirm if an intrusion attempt is taking place and then follow customer directed protocols for handling the alarms including notifying law enforcement or other first responders.

Service Company Report

Is your Service Company list correct? Over time employees come and go. Do we have the correct pin codes, email addresses and phone numbers for your users? When was the last time you updated who has access to your accounts in MASweb and MASmobile? Can you be sure employees that have left you no longer have access?
